

EXPRESS

Reamer Reconditioning Service

Simple. Fast. Precise.

Need your high performance reamers....

Retipped? Reconditioned? Repaired?

Send them to us!

We recondition monoblock style reamers, cutting rings and modular reamers from most major competitors.

Left hand and right hand helix, straight fluted, various geometries, face cutting and chip breaker geometries available on request using various cutting materials; CERMET, Carbide or PCD, with many advanced coatings to choose from.

Multiple layers of inspection to assure reamers meet our rigorous quality control standards.

- 3 to 4 week lead time for uncoated/ 5 to 6 weeks for coated
- Lower cost vs. buying new tools
- Same tool life & quality as new tools
- Tools can be retipped multiple times

Ask us about our emergency services for critical deliveries.

Send your tools to us and we take care of the rest.

It's that easy.

Please fill out our online form and either email to us for a quote or fill out the form AND send in your reamers for repair.

We will send a quote before any repairs are started.

Monaghan Tooling Group is proud to be the master distributor of Diatool high performance reamers in the United States.

DIATool GmbH is completely focused on providing their customers with the highest quality reamers available on the market. Diatool has over 40 years of experience in reconditioning and manufacturing new reamers. With experience in retipping 50,000 reamers a year, you can be confident Diatool is the right choice.
