

# REAMER RECONDITIONING SERVICE

Re-tip, Renew & Restore  
Reamers to OEM Specs

**40% Less Expensive**  
than purchasing a  
new tool

**No Limit**  
on number of times  
a reamer can be  
reconditioned

**Most Major Brands**  
can be  
reconditioned

**DIATool**

A reconditioned reamer by Diatool is repaired to the original quality specifications to insure it functions as a new tool.

### ***What Is Reconditioning?***

- Replacing each blade of a high performance reamer
- Grinding a fresh geometry to each blade
- Coating of the blades as required
- Refurbishing the body of the reamer

### ***What We Recondition***

High performance reamers from most major brands:

- Ceratizit (Komet)
- Mapal
- Allied
- Brunswick

Cermet, Carbide and PCD

### ***How It Works***

- Contact the Monaghan team to determine reamer eligibility
- Request an RMA
- Ship your reamers to our facility in Dayton Ohio
- 4-6 week lead time

### ***Got Legacy Reamers?***

Monaghan will gladly review your process to see how your legacy reamers can be optimized. **Reamer optimization** can increase performance and tool life by implementing the newest reaming technology into your legacy reamers.

With over 35 years of experience manufacturing and reconditioning high performance reamers, you can be confident in your choice to work with Monaghan for your reaming needs.
